

NexFlow

ORCHESTRATING SUPREME MARKET CLARITY

[PRESENTATION TITLE]

[Subtitle or date]

Agenda

01

Context & Opportunity

The Saudi HNW landscape in 2026

02

The NexFlow Approach

How we orchestrate clarity end-to-end

03

Platform & Capabilities

Core modules, data sources, integrations

04

Case Studies

Clients onboarded, AUM reached, outcomes

05

Next Steps

Partnership structure and timeline

01

C O N T E X T & O P P O R T U N I T Y

The Saudi HNW Landscape

Market conditions, wealth migration patterns, and the white space we're built to capture.

What Makes NexFlow Different

Three capabilities no other HNW platform in the region combines.

Real-Time Intelligence

Live monitoring of TASI, NOMU, CMA announcements, executive transactions, and board changes — translating market signals into prospect triggers.

Multi-Source Prospecting

Twenty+ Saudi data sources, wealth estimation with confidence levels, family-tree exclusions, and bilingual Arabic/English coverage.

Compliance Orchestration

Automated KYC, CR verification, and screening against SAMA, SIMAH, OFAC, UN, and EU sanctions — with audit-ready evidence for every contact.

By the Numbers

Built on real Saudi market coverage, not estimates.

395

companies

Full TASI + NOMU coverage

268

TASI

Main market companies indexed

20+

sources

Saudi data sources integrated

5M+

SAR

Minimum HNW threshold targeted

“

NexFlow turned three weeks of manual prospect research into a single afternoon.

The wealth estimation confidence levels are what finally made this work for my team.
